March 5, 2014

 Senator Tutvedt, Chairman
 Economic Affairs Interim Committee
 PO Box 201706
 Helena, MT 59620-1706

Dear Senator Tutvedt and Members of the Committee -

We are writing this letter to express our continued support for the "12-Day Rule". This issue is simply about providing high quality product to Montana's consumers. Montana's dairy farmers work tirelessly and are very proud of the high quality milk that they provide to Montana's consumers. Under the 12-Day rule the burden for insuring high quality milk is place on the producers and the processors - where it should be. If the 12-Day rule is removed that burden will be placed squarely on the consumer because producers and processors will no longer have to be diligent about inventory control.

The number of Montana dairies continues to decline. Over the last 12 years we have lost nearly half of our dairy farms. With market share competition from other products such as almond milk and soy milk, it is more critical than ever to provide only the highest quality product. Please do not put at risk a system that works well for Montana dairy farmers, Montana processors, Montana distributors, and most importantly, Montana consumers.

Dear Senator Tutvedt and Members of the Committee

We are writing this letter as consumers to express our continued support for the "12-Day Rule". This issue is simply about providing high quality product to Montana's consumers. We support Montana's dairy farmers and the great product that they provide to us and our communities.

As consumers, we are fully capable of understanding that a sell date means that the product must be sold by that date. We are not confused as to whether this is a use by date or a best by date. We understand that this is a sell by date. We appreciate and want this method of dating because that means that once we get the milk in our refrigerators it will last until our family has enjoyed every last drop. For some of us, we travel many miles to buy our groceries and it isn't as simple as "running to the store" if our milk is bad. We need a longer shelf life in our refrigerator and like the way that this works now.

Please keep the 12-Day rule in place so that we can continue to have fresh milk in our refrigerators.

As consumers, we are fully capable of understanding that a sell by date means that the product must be sold by that date. We are not confused as to whether this is a use by date or a best by date. We understand that this is a sell by date. We appreciate and want this method of dating because that means that once we get the milk in our refrigerators it will last until our family has enjoyed every last drop. For some of us, we travel many miles to buy our groceries and it isn't as simple as "running to the store" if our milk is bad. We need a longer shelf life in our refrigerator and like the way that this works now.

Please keep the 12-Day rule in place so that we can continue to have fresh milk in our refrigerators.

Sincerely,

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook or legal pad style. The edges of the paper are slightly irregular, suggesting it might be a scan of a physical document. There is no handwriting or other markings on the page.

Senator Tutvedt, Chairman
Economic Affairs Interim Committee
PO Box 201706
Helena, MT 59620-1706

We are writing this letter as consumers to express our continued support for the "12-Day Rule". This issue is simply about providing high quality product to Montana's consumers. We support Montana's dairy farmers and the great product that they provide to us and our communities.

Please keep the 12-Day rule in place so that we can continue to have fresh milk in our refrigerators.

[illegible]

Dear Senator Tutvedt and Members of the Committee

We are writing this letter as consumers to express our continued support for the "12-Day Rule". This issue is simply about providing high quality product to Montana's consumers. We support Montana's dairy farmers and the great product that they provide to us and our communities.

As consumers, we are fully capable of understanding that a sell date means that the product must be sold by that date. We are not confused as to whether this is a use by date or a best by date. We understand that this is a sell by date. We appreciate and want this method of dating because that means that once we get the milk in our refrigerators it will last until our family has enjoyed every last drop. For some of us, we travel many miles to buy our groceries and it isn't as simple as "running to the store" if our milk is bad. We need a longer shelf life in our refrigerator and like the way that this works now.

Please keep the 12-Day rule in place so that we can continue to have fresh milk in our refrigerators.
